# I-LEARN 3.0 Training

# Grades FAQs

This tutorial will teach you:
- Why you can't see your overall grade
- Why you can't see your letter grade and a percent

# Can I See A Letter Grade and the Percent Scored in the Class?

In I-Learn 3.0 the standard view for the overall grade is either:

- Letter grade and points
- Points and percent

Seeing a letter grade and a percent is not an available view option at this time.

When the course is designed, one of the two options above is selected. If you would like to know your percentage, you will need to deduce that from the points listed. Please remember some courses have weighted assignments. Not all points are created equal.
